

East Brandywine Township Historical Commission

Township Building

December 12, 2007

7:30PM

In Attendance:

James Buczala

Carl Josephsen

James Tobin

John Black

Steffenie Kirkpatrick

Katherine Prammer

Linda Morrison

The Historic Resource Protection Standards Ordinance was approved. We will notify anyone who has had a change in status regarding the classification of their property as a historical resource. Two structures have now become Class I. They are in the Applecross Development and Pulte is aware that they are now Class I.

James Buczala will clarify with Bob Wise and David Sweet whether the Determination of Eligibility status of the properties in the Village of Guthrieville classifies them as Class I resources for the Township.

The Commission will write an article for submission in the next edition of the Mile Marker regarding historic resources.

Linda Morrison stated that she has a contact who is an expert in historic preservation and adaptive reuse who could evaluate options for the Mama Lena's property. She also knows a structural engineer who could evaluate the condition of the building.

John asked everyone to continue to serve another year, and everyone agreed.
