

# Attachment C: Generator Permits

## Section C1: Supplemental Questions

- |  |                                     |                                      |
|--|-------------------------------------|--------------------------------------|
| 1. Is this a commercial or residential application?        | <input type="checkbox"/> Commercial | <input type="checkbox"/> Residential |
| 2. Will the transfer switch be manual or automatic?        | <input type="checkbox"/> Manual     | <input type="checkbox"/> Automatic   |
| 3. What type of base will the generator be placed on?      | _____                               |                                      |
| 4. What is the generator's output capacity (in kilowatts)? | _____ kW                            |                                      |
| 5. What is the generator's fuel source?                    | _____                               |                                      |
| 6. Manufacturer's (brand) name of generator.               | _____                               |                                      |
| 7. Manufacturer's model name or number.                    | _____                               |                                      |

## Section C2: Required Attachments

1. Please attach two (2) copies of the manufacturer's specifications including clearance requirements for the generator.
2. Please attach two (2) copies of a plan showing the location of the generator on the property and demonstrating compliance with the manufacturer's clearance requirements. Show distance to any building openings and proximity to building walls.

## Section C3: Inspection Schedule Acknowledgement

The issuance of this building permit requires you to comply with all provisions set forth in the Uniform Construction Code. Listed below are the stages of construction when the East Brandywine Township Codes Official must be notified. Inspections must be scheduled twenty-four (24) hours in advance. Failure to notify the township before proceeding to the next step will result in a stop work order. All inspections are scheduled by Township Staff at (610) 269-8230.

### 1. Final Generator Inspection

Inspection will be made once the generator is installed. The manufacturer's installation instructions shall be available on site during the inspection.

As per resolution number 06-11, the Township will bill the homeowner \$80.00 per inspection for additional inspections requested by a builder or homeowner, or for any re-inspections required due to failures of initial inspections.

To avoid this billing, if you know that you are not going to be ready for an inspection, you must call the Township at least one (1) hour prior to the scheduled inspection to cancel or to re-schedule.
